

# How to Recycle

Blue bin, green bin and other recyclables

**RHODE ISLAND  
RESOURCE RECOVERY  
CORPORATION**

Did you take the cap off your plastic jugs and bottles? Did you rinse out your tin cans? How about flattening and cutting down your oversized corrugated cardboard? And what about all that junk mail; did you throw it in your green bin instead of in the trash?

Whether your town provides pick-up service, your household contracts with a private hauler, or you choose to drop your recyclables off at a local transfer station or at the Central Landfill, recycling is something anyone can do. And it's so easy!

We know Rhode Islanders already believe in recycling because the Materials Recycling Facility in Johnston processes 160 million pounds of newspapers, glass, aluminum, tin cans, and plastic bottles. Each day 175 trucks drop off materials and the facility processes approximately 325 tons per day. And even with that, we could be recycling more. In fact, 60% of the trash generated by an average household is recyclable. To help you collect more recyclables and fill your GREEN and BLUE BINS properly, refer to the chart of information inside this brochure. Whether you're learning or improving your habits, Resource Recovery encourages you to contact us if you have questions or want tips on separating your recyclables.

## Directions to the Central Landfill

### Location

65 Shun Pike, Johnston, Rhode Island

### Hours

Monday-Friday . . . . 6:00 A.M. – 3:45 P.M.

Saturday . . . . . 6:00 A.M. – 12:00 NOON

The Rhode Island Resource Recovery Corporation (RIRRC) is a non-profit, quasi-public agency that was created by the General Assembly in 1974 to serve the solid waste management needs of the state. RIRRC is dedicated to reducing reliance on landfilling through resource conservation programs such as waste reduction, recycling and composting.

Printed on recycled paper, of course.

Place next to bin.	<ul style="list-style-type: none"> <li>No cardboard larger than 3 feet</li> <li>No dirty or greasy cardboard</li> <li>No pizza boxes</li> </ul>

## Other Recyclables

### Proper Collection and Disposal of Special Materials

The following materials may be brought to the Central Landfill. You may also contact your city or town department or public works for scheduled pick-up of these items. Some pose hazards when not disposed of properly, while others may be recycled. It is recommended you call either the Central Landfill or your local transfer station in advance to check on current fees for some items and to review proper drop-off procedures.

**Appliances and Other Scrap Metals** including air conditioning units, washers, dryers, and refrigerators are collected at specially designated areas at the landfill for a nominal fee.

**Automobile Tires and Batteries** may be dropped off at the landfill for a fee.

**Yard Trimmings** such as leaves, garden trimmings and grass clippings, which Resource Recovery composts and uses for proper landfill management coverings.

**Clothing and shoes** including towels, linens, curtains and handbags – in good condition, cleaned and wrapped in protective bags – may be brought to charitable organizations. Contact your local public works department to arrange for pick-up. The Central Landfill does not provide collection for these items.

**Computers and Electronic Parts Collections** including peripheral equipment, such as printers and computer monitors on scheduled Saturdays or by appointment may be brought to the Central Landfill. Some of the equipment contains environmentally hazardous materials, therefore landfill disposal is not an option. Special collection dates and locations are also available around the state; contact Resource Recovery for information about the next event.

**Household hazardous waste (HHW)** should not be thrown in the trash or put in your recycling bins. HHW refers to products that list: CAUTION, DANGER, WARNING, POISONOUS on their labels. Request an Eco-Depot brochure or visit our web site for a complete list. Resource Recovery manages the Eco-Depot at the Central Landfill, which offers by appointment drop-offs on scheduled Saturdays. The service is offered FREE to Rhode Island residents.

Items listed for collection in your GREEN AND BLUE BINS may be dropped off at the Central Landfill at no charge. If you have curbside service, please follow these guidelines to assist your hauler and Resource Recovery with proper preparation of materials for recycling.

### More Questions?

Do you need new or additional recycling bins? Are you interested in learning about what happens to your recyclables once you empty your green and blue bins? Looking for more general information about recycling? Call 942-1430 X775 or visit [www.rirrc.org](http://www.rirrc.org) for answers to your questions.
